

## For Women's Fine Garments

Suits, skirts, shirt waists—starched garments of all kinds—that fairly beam with snowy beauty and freshness, will be the rule, rather than the exception, if they are starched with the genuine

## KINGSFORD'S OSWEGO Silver Gloss Starch

No starch ever has or ever will equal this for delicacy and fineness of finish. Garments starched with Kingsford's starch, are more pliable, and have a newer and clearer appearance than with any other. Can't injure goods; goes further because of superior strength, hence most economical. Does not stick to the iron. The standard of quality for over half a century.

BEST FOR ALL KINDS OF STARCHING  
For general use boil as directed. For light starching unequaled as a cold water starch, requiring no boiling.  
Made for over fifty years at Oswego, All grocers, in full-weight packages.

T. KINGSFORD & SON, OSWEGO, N. Y.  
NATIONAL STARCH COMPANY, SUCCESSORS.

Martins Ferry, O., July 18.—A cloud burst here Tuesday night demolished half a dozen houses, carried away several bridges on the Colerain pike and covered the streets of Martins Ferry with debris, so that street car traffic was tied up.

## STATE RESTS

In the Haywood Trial and the End Is Near.

## NO MINE OWNERS

Or Pinkerton Detectives Gave Testimony—Last Witness Told of Maltreatment by Miners.

Boise, Idaho, July 18.—The state rests content with the evidence it has introduced to prove that William D. Haywood, secretary-treasurer of the Western Federation of Miners, conspired to kill and therefore murdered Frank Steunenberg, Haywood, through his counsel, to-day will rest his case with the jury, so far as evidence is concerned. Possibly some witnesses will be called in rebuttal, but Haywood's counsel announced that the case may close without further evidence.

Friday morning argument is expected and the last stage of the trial will begin. After dismissing the jury Wednesday Judge Wood stated that in his opinion evidence introduced by the defense to prove a conspiracy on the part of the mine owners, by showing the deportation of union miners from the Cripple Creek region of Colorado during the strikes of 1903 and 1904 was not material to the issue involved and should not be submitted to the jury. On the other hand, he said, the showing by the state that Steve Adams was concerned in the killing of two men in the Coeur d'Alene region of Idaho did not appear to the court to be germane and should be eliminated.

The state called only two witnesses in rebuttal yesterday. At the last moment the prosecution decided not to call mine owners or Pinkerton detectives. As a result of this decision a number of witnesses will not be heard. Bulkeley Wells, formerly adjutant general of Colorado, left Boise Tuesday. He commanded the militia during the labor troubles in 1903 and 1904, and was the man who dug up the bomb at Judge Goddard's gate. The last witness for the state was William Stuart, a Scotchman. He was a miner in the Cripple Creek region during labor troubles and told a terrible story of maltreatment at the hands of miners who had warned him that he would have to take the consequences if he went to work as a "scab." Stuart went to work, however.

**A Soldier is Charged with Murder.**  
Columbus, O., July 18.—Fearful that a mob will take their prisoner, four deputy sheriffs from Louisa, Ky., will take Charles Johnson back in a baggage car. Johnson is held at the barracks here. He will leave Columbus today in custody of the deputies, June 30 James Boggs, a farmer, was shot on a country road in Elliott county. He died later. He said Johnson shot him. After fleeing to Richmond Johnson enlisted in the army and was sent to the Columbus barracks.

**Storm Caused Three Deaths.**  
Zanesville, O., July 18.—A cloud-burst and electrical storm Wednesday resulted in three deaths and much property damage. Taylor Davis was drowned while fording a creek at Roseville and a man was drowned in the Adams Mills basin. His boat was upset by the wind. John Kline, a miner of Conneville, was killed by lightning at South Zanesville.

**A Disastrous Cavein.**  
Victor, Col., July 18.—The main line of the Midland Terminal railroad was put out of commission, the city water main was broken and the Stratton Independence mine was closed Wednesday by an immense cavein on the No. 2 shaft on Battle Mountain. The road has caved in for 450 feet and the roadbed has sunk from three to 15 feet in places.

**Efforts to Bribe Jurymen Were Made.**  
San Francisco, July 18.—Charges that efforts were made to bribe two members of the jury that tried and convicted ex-Mayor Schmitz on the charge of extortion were laid before a grand jury Wednesday. The two jurymen involved, Royal W. Cudworth and Charles D. Gish, gave testimony.

**Will Spend \$4,000,000 for Repairs.**  
Paris, July 18.—Minister of Marine Thomson has decided to repair the French battleship Jena at a cost of \$4,000,000. The magazine of the Jena exploded at Toulon last March with a loss in dead and wounded of over 120 men.

**100 Desertions from a Battleship.**  
Norfolk, Va., July 18.—During the past few weeks 100 deserters have been listed and advertised from the battleship Minnesota, one of the warships in Hampton Roads.

**Rioters are Indicted.**  
Roanoke, Va., July 18.—A special grand jury investigating the rioting of last Saturday night when a mob smashed all the Greek restaurants in town, last evening returned 20 indictments. Thirteen of those indicted have been arrested.

**Enormous Damage by Storms.**  
Pittsburg, July 18.—Delayed telephonic communication with West Virginia points reports enormous damage by cloudbursts and storms in the interior of the state. Several railroads are tied up.

## JEW PLAN UNIQUE BANK.

Profits to Be Given for Development of Palestine.  
Tannersville, N. Y.—At the next session of the legislature of the state of New York the Zionists will have a bill presented authorizing the establishment of a bank in New York city, which will be unique in that it will be closed on Saturdays and the profits of which will be devoted to the development of Palestine.

A committee headed by Nathan Prenskey, a merchant of Brooklyn; Henry Jackson, of Pittsburgh, and Dr. B. L. Gordon, of Philadelphia, reported at a session of the Zionists' convention here that stock to the amount of \$50,000 had already been subscribed for, with promises of a similar sum as soon as the bank is established. One of the features of this bank will be a steamship brokerage department, which will serve to protect the poor and ignorant Jews of the East side of New York city from the frauds practiced on them by irresponsible men.

As soon as the bank in New York city has been established branches will be opened in Boston, Philadelphia, Baltimore, Pittsburgh, Cleveland, Chicago and Cincinnati and in other cities where there are large Jewish settlements. It is anticipated that the profits of this enterprise will be so large that many projects for development of the industrial and agricultural possibilities of Palestine, which are now in abeyance, will be successfully carried out and the way opened for the settling there of an enormous Jewish peasant population.

## NEW RECORD IN JUNE BRIDES.

One Every Thirteen Minutes for the Month in Chicago.

Chicago.—While you read these words, stop and think! Chicago has 3,300 June brides to-day! The love bug has been working overtime and has broken all records.

Three thousand three hundred June brides! That means 110 brides a day or one every 13 minutes!

Hymen, Cupid & Co. report the most prosperous month since the firm was established.

Last year there were 3,103 June brides; in 1905, 2,907; 1904, the record was 2,758.

**Marriage License Clerk Salmonson,** the man who has opened the door of wedded happiness to hundreds and hundreds of thousands of Chicagoans and others, preached a little lay sermon the other day for June brides. These are the points on which he laid stress:

1. Love your husband always.  
2. Be his companion, his friend, his chum.  
3. Never, never be suspicious or nagging.  
4. Study his tastes and give him what he likes.  
5. Get up and cook his breakfast for him.  
6. Make his home as attractive for him as you can—as attractive as the club or the saloon.

## PLAGUE SWEEP INDIA.

In Ten Years There Have Been 4,411,212 Deaths—Mortality Increasing.

London.—During the first three and a half months of 1907 the deaths from the plague in India totalled 494,000, the heaviest monthly mortality yet reported during the epidemic. According to the Indian World this would appear to show that the present year will exhibit a record number of deaths.

The plague records for the ten years October, 1896, to December, 1906, show that there was a large annual increase from 1901 to 1904, the deaths numbering 274,000 in 1901, 577,000 in 1902, 576,000 in 1903 and 1,022,000 in 1904, the worst year in ten years.

There was a small decrease in 1905, the deaths falling to 951,000, and a large decrease in 1906, when there were only 332,000. The total deaths for the whole ten years numbered 4,411,212. The improvement which was shown in the two years 1903 and 1906 has not, unfortunately, been maintained.

From the first appearance of the disease up to the year 1901 the mortality was greatest in the Bombay presidency, but from 1902 onward, with one exception, the worst area has been the Punjab, and in 1905 the deaths in the latter province alone numbered 364,625.

## ACROSS AFRICA IN AUTOMOBILE.

Prussian Army Officer and His Aide Will Make Daring Trip.  
Berlin.—Lieut. Graetz of the Prussian army will leave here soon to make the first effort to cross Africa in an automobile. He proposes to start from Dar-Es Salaam, on the east coast, about August 10, riding through German East Africa, British Central Africa, Rhodesia and German Southwest Africa to Swakopmund. He proposes to make the journey in not less than six weeks. He will drive a specially made 45 horsepower car, with very heavy wheels and compartments for holding sufficient gasoline for 1,000 kilometers. He will provide himself also with a big ladder. Accompanying him will be a machinist, a cook and a negro servant. He will have an elaborate photographic outfit.

The Kaiser is said to be much interested in the venture and has directed that a report of the trip be made to him.

## A MAGNIFICENT PRODUCTION.

For the first time in the history of the famous production of the Passion Play—or The Life of Christ at Oberammergau, Switzerland, an exact and authentic production is being given to the world at large by means of Moving Pictures.

The management of the Nickelodeum has, at a great expense secured this gorgeous set of films, which are over 3000 feet long and hand colored throughout and are exhibiting them this week at their theatre on South Main street.

From the time the Shepherds first beheld the Wonderful Star to the time of Christ's Ascension, each event in the life of our Savior is portrayed in such a beautiful and realistic manner as to impress itself indelibly upon the mind of the beholder and especially to Bible students and children this opportunity to witness this grand spectacle should not be permitted to escape.

The Ministers of the City have all been invited to attend as guests of the management and will no doubt avail themselves of this opportunity to witness what would otherwise necessitate a trip across the ocean.

These pictures have been exhibited at other places and the admission charged ranged from \$1.00 to \$2.00, and the increased cost to the Nickelodeum management has made it necessary to raise their price of admission but knowing that the public in general would want to see these hand-some films, they have placed the admission fee at 10 cents, which will not keep any one away as the higher prices would have a tendency to do. Everyone who has so far witnessed this production speaks of it in the highest terms and crowded houses are sure to repay the management for this piece of enterprise on their part.

Profited by Error.  
"When I opened the door," said the flat dweller, "my ice man stood there. He looked very meek and humble, to my surprise."

"I will fix that ice bill you thought was too exorbitant," he told me. "Perhaps it was. I will cut it down."

"He had gotten me mixed up with somebody else. I hadn't complained, but that didn't keep me from getting out the bill and letting him cut it down all right enough."

## THE COW AS A MACHINE.

As an illustration of the efficiency of a good cow, as a machine for the manufacture of milk and butter from grain, the record is given of a Holstein cow at the age of three years, which, during one year produced milk amounting to 18,573 pounds, or over nine tons of milk containing 620 pounds of butter. The net profit figured in maintaining such a cow is stated at about \$150 per annum.

## MOURNED DEAD FOR YEARS.

New Jersey Man Returns Home with Part of Memory Gone.

Burlington, N. J.—Restored alive to his family after having been mourned four years as dead, but lost to himself, is the strange fate of Charles P. Brewin, for 20 years a staunch citizen of this revolutionary town. He is the man that was.

To himself Brewin is a child with but a two years' memory, in spite of the three score years that have set the snow on his head. He is now, he thinks, Charles Johnson, a gray little tailor, whose interest in life does not extend much beyond his "goose." Yet his wife and children are weeping over him, trying to persuade the amazed little man that he is of their flesh and blood.

A stranger case of dual identity, with one self-dead, seldom has been disclosed. Physicians who have known the whilom tailor as prosperous Charles P. Brewin say the pressure of a small bone on the brain is the cause of all his trouble.

Brewin's dual history dates from four years ago in November when his wife and children awoke to find him gone. A search failed to find him, and he was believed to be dead. The other day, however, an old acquaintance recognized him in Plainfield, only a few miles from his old home.

**Produces Vegetable Novelties.**  
Washington.—One of the agents of the department of agriculture working on his New Jersey farm has produced a new vegetable novelty in the shape of a seedless tomato. The variety has been called the Giant, because of the large size that the plant attains.

Six years of experiments was necessary to produce the seedless tomato. Each ordinary tomato contains hundreds of seeds, while the form now developed seldom contains more than 50 seeds, and often none.

Before attaining success in his experiments the government scientist produced large crops of freak tomatoes. Some plants included clusters no larger than peas. In one instance the fruit had the flavor of a strawberry.
